Dear [Redacted]

Your letter of 27 February arrived just in the nick of time. We presented the 25% design completion to the McLean Citizens Board of Directors on Wednesday evening, 5 March. The board supported Mr. Maxfield's position in every respect, and your additional Option #2, and additional berm--treatment was well received. The timing on the Beltway lane, not quite.

You will be receiving a more complete response from the McLean Citizens Association shortly. Your final sentence of concern was greatly appreciated. Thank you very much.

Sincerely,

Arthur C. Sabin, Chairman  
MCA Transportation Committee
